

Free Tract Society January 2024 Newsletter

258 Gospel Tract printable PDF documents with thumbnail images of the covers, are now posted under "Downloadable Tracts" or "View Downloadable Tracts" on the new design Free Tract Society Website www.freetractsociety.net. This includes tracts from HIS Print Media Ministries. The listings have sub categories like English, Spanish, Foreign Languages, Children & Teenagers, etc. These tracts are on computer and ready to print on our two quality Canon professional color laser printers. We now have the option of adding your custom contact information on the back of these tracts where space is available. Some of the tracts are already printed, sitting on our tract tables, waiting to be ordered and delivered.

Some tracts have not yet been converted to computer documents, but this is done at no charge, upon request. We have a year 2016 list of all tract titles the Free Tract Society was working with then, in the days of offset printing presses. We still do one and two color printing on printing presses for large orders.

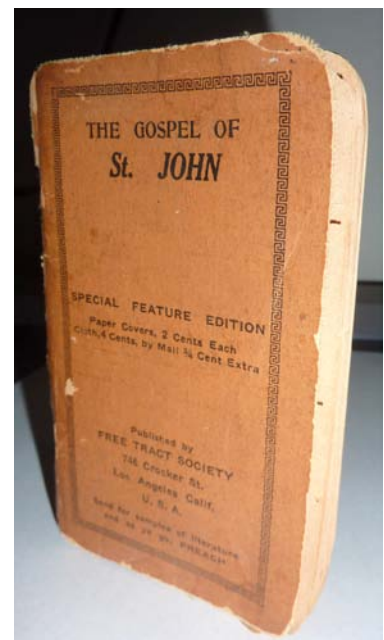

Here is how to navigate the FTS website to see the available tracts that are ready to print:
