

His Print Media Ministries Tracts on Hand as of 1/18/2023

Introduction: The Gospel Tracts listed here are printed and ready to distribute (with many already folded and shrink wrapped). We are asking a donation of \$10 a pound (which is the current Free Tract Society price) for these "on hand" tracts. On a computer device with internet access, clicking on the blue hyperlinked text for a tract, one is taken to the location of a thumbnail picture of the tract on our website www.tracts4u.com. From that point, an additional click enables one to read the tract online, or download a printable version.

Most of these pre-printed tracts have a space on the back to add a contact address, either by a rubber stamp, or by unfolding the tract and running it through an inkjet printer from a custom computer document containing just the address.

This list contains predominately English and Spanish tracts. The website has additional foreign language tracts.

Tract documents posted on our website that are not in this list, can be downloaded to make tracts yourself. A free 446 page full color PDF e-book [Christian Evangelism Printing](#) shows how to do this. In Addition we offer 20+ free [Youtube online training videos](#). We can make these non-listed tracts, for a fee, on demand in limited quantities on our professional laser printers, or; for a fee, print large quantities on our one and two color offset printing presses.

We also design, and print (fee for printing), custom tracts of your choosing with your church contact information on them.

Printing for the Free Tract Society of Los Angeles, we can also make available their wide variety of tracts which are not in this list.
