

December 2025 Newsletter

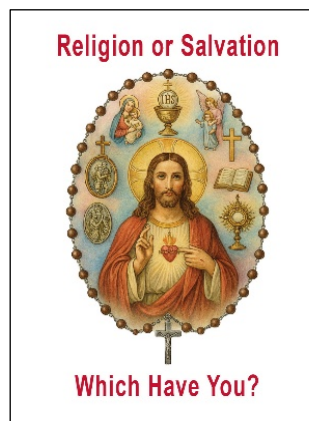

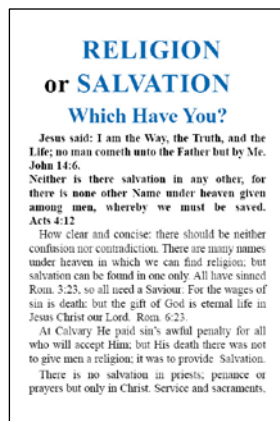

- 1) Two Recent Encouraging Testimonials – A middle aged Asian man who worked as a volunteer for the FTS years ago, was passing through town and visited our Christian Evangelism shop for two days. When I showed him the wide variety of jobs we can do (e.g., paperback books, booklets, full color tracts, sign making, high volume one and two color printing press tracts), and let him help cut / trim some printed tracts, he told me he was quite impressed and surprised at what we do now compared to his past work with FTS in the Los Angeles area years ago (i.e., before their storefront on York Blvd. in Highland park).

An older writer and editor in England e-mailed us to state that she had been reading the Gospel Tracts posted on the FTS website. Here is her 11/4/2025 response: "I like your message style in your tracts. They're brilliant. It reaches out to where many people are 'at'. I believe finding your tracts site was ordained by the Lord – there are none that I've seen so far which are as relevant as yours."

- 2) HIS Print Media Ministries, Inc. – Working with SPOKES, a nonprofit support group, we filed documents with the State of California and the IRS and became our own non-profit tax-exempt public benefit California Corporation with a Federal EIN number. We have a five-member board of directors. We continue to keep detailed business accounting / records. Our work is all volunteer. We continue to accept a \$10 a pound donation (average of 5 or less cents a tract) for those who can afford to pay for the gospel tracts they want. We did the math and calculated this 5 cent price makes no profit. Upon request, we can issue a tax-deductible receipt for donations.
- 3) Conversion from Printing Press Negatives to Digital Computer Documents - We now have a print on demand assortment of up to 300 tracts, which anyone can also print themselves from the PDF documents posted on the www.freetractsociety.net website. When HIS Print Media Ministries was asked to take over the printing and shipping of the Free Tract Society we added about 90 additional tracts we wrote, or helped others write. We have years of experience writing and designing Gospel Tracts.
- 4) Through unexpected equipment gifts and special purchases, we have updated our older used bindery equipment. A local nationwide technical advisor for a major brand of bindery equipment, called to have us pick up a good condition benchtop paper cutter with a digital readout, and a modern name brand compact automated paper folder. We also now have a year 2016 booklet maker with face trimmer that connects to our electric collator. We needed this for the 125,000 English and Spanish small Know Your Future (Conozca Su Futuro) tract booklets job we get each year.

- 5) Read Order e-tracts for Social Media Sharing – Working with the Christian Internet Design LLC website designers, we added a new category of PDF tracts that can, with a smart phone, computer, or tablet with an internet connection, be shared at no cost by way of the major social media platforms line Facebook and Instagram. The webmaster included the clickable URL icon links. [Click here to see an example.](#)
- 6) We met a Hispanic (native speaker) former schoolteacher who has helped us translate more Gospel Tracts into Spanish, and review and update tracts already in Spanish. [Click Here to see an example.](#)
- 7) Using AI (Artificial Intelligence) and Microsoft Co-Pilot to generate new attention getting cover artwork for older tracts – I asked the Spanish translator to help find and add a cover graphic for the tract Religion or Salvation – Which Have You? I wanted a version directed toward Catholics. I told her I wanted a drawing of Jesus surrounded by smaller graphics of rosary beads, and saints related jewelry. She made several attempts in describing to the co-pilot what we wanted, and she came up with exactly what I had been looking for. Then David felt like the Holy Spirit gave him another version cover Whose Way to Heaven – Yours or HIS? Here are the results:

8) HIS (i.e. God's) Ministry Future – We are printing and shipping Gospel Tracts with a low overhead, but the potential of this efficient Christian Evangelism Printing shop is nowhere near it's potential to mass produce tracts. We need more individuals, churches, and outreach ministries ordering or using the 263+ tracts we offer. A modern Bible translation of the Book of Acts states that "the gospel (good news) spread in ever widening circles." We appreciate your prayers for our continued growth. In 2016 the Free Tract Society was printing a minimum of 132,000 Gospel Tracts a month, on a printing press! We have two high speed printing presses, and easy on demand printing from computer documents with two professional Canon color laser printers. We are ready and willing to make more tracts to bring more people to a saving knowledge of Jesus Christ. We even have older beautiful [overstock tracts on hand for a donation plus shipping](#) made on our two-color printing press, including older Free Tract Society tracts with the old address.
